SUMMARY

Web application developer armed with proficient knowledge of entire software development lifecycle and **react** expertise. Adapt at using **JavaScript**, **Typescript**, **CSS**, **HTML** to design the user interface and deploy it effectively in applications. Skilled in conducting manual tests and debugging client projects for better company-client relationships.

WORK EXPERIENCE

Enginetech Inc.
React Developer, May 2022 - Oct 2022

Extern Labs Inc .
Internship, Jan 2022- Apr 2022

PROJECT DETAILS

Worked as a React Developer

Web Application Development:

- Developed 3+ web application by using responsive UI elements via **React** concepts for smooth performance.
- Built user interface code of 2+ web application with **reactJs**, **javascripts** based on approved design.

UI Designing and Front-end Architecture:

- Determining the design and layout of web application using **HTML**, **CSS** and **Javascript** with 100% accuracy.
- Collaborating with a team of 5 professionals and designed the front-end architecture with the UI concept of 5+ websites.

YouTube Clone

- Built and deploy a modern **ReactJS** application using **Material UI** that is a YouTube clone.
- Data retrieval is done by using the **RapidAPI**. I used responsive channels and my own unique categories in this app.
- Most significantly, video pages allow you to watch related videos, play the video directly from the app, and do much more.
- Reusability of **React** functional components .
- Media queries that are strategically placed to be responsive across all devices .
