

DIKSHA KUMARI

FRONTEND DEVELOPER

ABOUT ME

Web application developer armed with proficient knowledge of entire software development lifecycle and React expertise. Adapt at using JavaScript, Typescript, Vue.js to design the user interface and deploy it effectively in applications. Skilled in conducting manual tests and debugging client projects for better company-client relationships.

WORK EXPERIENCE

EngineTech

Sep 2020 - Oct 2022

React Developer - Pune, India

- Designed and implemented a web app for storing the information of Supplier, generating sales reports, saving contacts and handling schedule management.
- Developed dynamic and browser compatible web page using web development techniques **Vue.js, React Js, PHP**.
- **React** with **TypeScript**: Experience in typing components, props, and state.
- Converted data from database into **JSON** and retrieve useful information using **AJAX** calls to display them on the browser.
- Enhanced the design of Company's dashboard and provided different dropdown to filter relevant information.
- Participated in each step of the product development process from ideation to development.
- Developed custom functionality, integrations and plugins for our clients using documented **APIs** and best-practice techniques.
- Familiar with **Agile** and **Scrum**

Extern Labs

Apr 2020 - Aug 2020

Intern Front-end developer - Jaipur, India

- Created Employee Management System for Extern Labs using **REACT, JAVASCRIPT, CSS, HTML, WordPress**.
- Assessed and collaborated with the **UI/UX** design team for technical feasibility.
- Created a responsive modular component for future projects.

Youtube Clone

- Built and deploy a modern ReactJS application using Material UI that is a YouTube clone.
- Data retrieval is done by using the RapidAPI. I used responsive channels and my own unique categories in this app.
- Most significantly, video pages allow you to watch related videos, play the video directly from the app, and do much more.
- Reusability of React functional components.
- Media queries that are strategically placed to be responsive across all devices.

EDUCATION

MCA/ Masters of Computer Application

BCA/ Bachelor in Computer Application
